

AG P-Chemistry Webinar - Scientific Exchange Despite Distance

Due to the shutdown and contact restrictions in the course of the COVID 19 pandemic, no conferences are expected to take place this year.

In order to enable the scientific exchange of German and international phosphorus and group 15 chemists even in times of Smart Distancing, the *P-Chemistry Webinar* series was initiated by Dr. Christian Hering-Junghans from Leibniz Institute for Catalysis (LIKAT).

Established scientists as well as young scientists have the opportunity to present their results and discuss them with (international) colleagues.

Interested colleagues are kindly invited to participate!!

Details:

Platform is Zoom, the speaker shares his or her screen with the audience and the audio is transmitted.

Speaking time (+ discussion):

Established scientists: 40+5 min

Early Career Researchers (PhD, PostDoc, Habilitation, W1): 20+5 min

Rotation: every two weeks

Time: 6 p.m. (CET) (enables active participation of North Americans and participants from Asia), May until the end of 2020

Further Information:

A recording of the lectures is possible and can be provided "on-demand" for 24 h (after prior registration and with the prior consent of the lecturers).

The speakers will be introduced briefly by the moderators.
