## Dr. habil Eszter Baráth funded within the framework of the Leibniz-Professorinnen-Programm

Eszter Baráth is being funded as "one of five internationally outstanding female scientists" under the *Leibniz-Professorinnen-Programm*: "Funding for Eszter Baráth (Leibniz Institute for Catalysis, Rostock) to establish a professorship with the University of Rostock. She plans to establish a new process chain for the transfer hydrogenation of unsaturated compounds."
